Supporting Education

What People Say

"We decided to outsource our data management to SchoolVue. We have never looked back. They are a great team, extremely supportive and completely flexible."

D. Lucas
Executive
Headteacher

"I have worked with the Schoolvue team for years. They are helpful, innovative and agile."

D. Lennon
Headteacher

"Since bringing Schoolvue in we have managed to use our data systems in ways that we were always told we couldn't. It's now so much easier for our staff to identify progress."

S. Byrne
Headteacher

Why choose a Data Service?

All of our schools originally had an onsite data manager but made the decision to move to a Data Service. We believe this was because our data team provide:

- **Resilience** - each member of our data team will understand your school and have access to your MIS. This means you are no longer reliant on one person's expertise - you will have access to a team of data experts five days a week including school holidays. You are not dependent on the knowledge and skills of one specific individual.
- **Expertise** - school data is what we do, all day every day, so we make sure we keep up-to-date with the changing educational landscape and accountability framework.
- **Value for money** - our service is cost-effective with no hidden extras; you only opt for the services your school needs. All of our schools have made significant savings.

Build Your Service

Our Data Manager Service Level Agreements fully manage your school's data and our tools will engage all stakeholders
